

## **CLEANING INSTRUCTIONS FOR BENCH LEGS STAINLESS STEEL 304**

Thank you for purchasing our Stainless-Steel Bench Legs from Keyless.Co. Our products are made of 304 Grade Stainless Steel, a highly durable and reliable product.

### **Warranty Term:** 1 Year

- Warranty does not cover cosmetic damage due to inappropriate cleaning procedures, the use of harsh chemicals, or finish scratches. For best results please follow the guidelines below.

### **Cleaning your Stainless Steel**

To keep your products hygienic and to assure a long life, it is essential that regular cleaning is maintained. 304 Grade Stainless Steel has excellent corrosion resistance in contact with different corrosive media. Stress corrosion cracking can occur above 60°C.

### **Recommended Cleaning Procedure**

1. Cleaning with soap, mild detergent or ammonia solutions in warm water (below 60°C), applied with a soft cloth or nylon sponge. Rub in the same direction as the grain.
2. To disinfect use a grade non-bleach disinfectant, we recommend 70% alcohol solution. Avoid using disinfectant solutions and/or wipes that contain bleach or chlorine.
3. Wipe the surface completely dry with a soft cloth, rubbing in the same direction as the grain.

### **Do Not Use the following Cleaning Agents:**

- Harsh chemicals such as Chlorides should not be used as corrosion can occur.
- Anything with a pH level below 5 or above 12
- Bleach or chlorine- If bleach solutions come in contact with the stainless steel, it is important to wash thoroughly with warm water and a soft cloth.
- Hydrochloric Acid
- Boiling water above 60°C
- Abrasive Pads
- Metal or plastic scrapers
- Steel Wool pads
- Wire brushes
